

Permission Slip to Publish YouTube Videos in the Public Domain

Dear Parent or Guardian,

The 8th grade students just completed a unit in which they created book trailers. The trailers have been uploaded to my YouTube channel and have been privately listed. This means that no one except myself has access to viewing them. I did this on the recommendation of the Children's Online Privacy Protection Act and because of the fact that your children are minors.

However, some of the students have asked if they could make their videos public so that family, friends, and others may view them. If you grant permission to make your child's video available to the global community, for safety reasons only your child's first name will be published.

If you agree to allow your child's work to be made public in the manner described above, please complete the form below, sign it, and have your child return the form to me as soon as possible.

Thanks in advance for your consideration, and please don't hesitate to contact me if you have any questions or concerns.

Sincerely,

Ms. Stephanie DeMichele
Technology Teacher | St. John of the Cross School
